WHY SPONSOR?

The Wireless Global Congress is the largest international conference of the wireless broadband ecosystem. It is an opportunity for you to share new ideas, discuss upcoming trends, innovations in Next Gen Wi-Fi networks, roaming and services.

And it's not just for techies! Representatives from the global operators, business community, governments, industry insiders, suppliers, roaming partners, infrastructure, system vendors and device manufacturers and many other contributors whose work affects the future of the global wireless will attend.

We tailor packages to suit your needs, helping you to define your position within the Wireless industry and develop the right relationships with the right people.

- Meet with industry experts from all parts of the Wireless ecosystem including: wireless broadband operators, suppliers, roaming partners, infrastructure, system vendors and device manufacturers.
- Network with attendees including senior level decision makers from leading mobile and fixed line operators and leading technology companies including: CEOs, CTOs, Heads of Network Planning, VP's of Alliance Partnerships, Heads of Roaming Partnerships & Wholesale, Heads of Technical Leader, Business Innovation.
- Evaluate technology and infrastructure offerings in the comprehensive exhibition.
- Benefit from meaningful discussions with potential partners during scheduled 1-to-1 meetings.
- Expand your outreach through our VIP Networking Management Service.

SPEAKING OPPORTUNITIES

While speaking opportunities at the Wireless Global Congress events are typically by invitation only, we welcome suggestions for panel speakers for our events. Speaking opportunities are also included in a number of our event sponsorship packages.

The congress is looking for industry expert with case studies to share. We are interested in hearing from individuals with experience in all areas and industries to be considered for upcoming conferences.

If you have first-hand experience implementing, managing, or developing innovative programs, processes or systems with the themes of the congress, we'd like to hear from you.

SPEAKING THEMES

- Next Gen Wi-Fi networks and (roaming) services
- Licensed / Unlicensed Coexistence and Convergence
- Connected City Deployments and Sustainability Models
- Current and Future Shared Spectrum Solutions
- Business Models & Case Studies
- Wireless Innovation in IoT and 5G developments
- Policy Considerations and Actions
- “Connecting the Unconnected” – reducing social exclusion
- WBA Accelerator – start-up accelerator programme
